

How to measure your bracelet or cuff bracelet size?

How To Determine Bracelet Size

Measure your wrist with a flexible measure tape to obtain bracelet size. If you don't have a measure tape, use a piece of string and then measure the string with a ruler.

If you do not see your size on the options request the size in the Notes To Seller section during checkout or contact me.

Please note our sizes are based on your wrist measurement, not total length.

Do not add extras unless you want a loose fit.

We will add the correct length for a great fit.

**measure higher up your arm for the Wide Cuffs as it may be a larger size.*

SIZE	INCHES	CENTIMETRES	UNISEX SIZING
X-SMALL	6	15.24	*Average Women 6-7" (15-17.5 cm)
SMALL	6.5	16.51	*Average Men 7-8 (17.5- 20.32 cm)
